

Make the login/signup feature accessible from anywhere on the site. It should be easy to find, either in the header or through a pop-up.

Added the login/signup button to each page

The property descriptions feel a bit short. Try adding more details.

Added more details like the sq feet / beds / bathrooms and addresses

The agent profiles need some work. Add more info about their experience and maybe update the pictures so they look more professional.

Updated pictures and details

The Market Statistics section feels a bit plain. Use charts, graphs, and colors to make it more engaging. Show some trends or comparisons to make the data easier to digest. Make it more visually engaging and informative.

Added different charts to make it more visually appealing

Avoid using the same pictures for different listings.

Added more and different pics

The overall design could use a bit more personality. Play around with colors and fonts

Added some visual features
